

Resort

Aluminium Plantation Shutters

Take Control.... Control Your Light, Views, Privacy & Ventilation

Ideal for **Exterior
& Interior** use.

Privacy Solutions for
Patios, Balconies,
Verandahs &
Windows

RESORT Aluminium Plantation Shutters have been designed as a modern, functional shutter which is aesthetically appealing for both exterior and interior use.

Using only the highest quality of finishes which is backed by a 7 year warranty, Resort creates maintenance free durability & style to your home, office or commercial environment.

RESORT Aluminium Plantation Shutters can be adapted as a hinged, sliding or bifolding door allowing increased access, light penetration and sun control to any internal room.

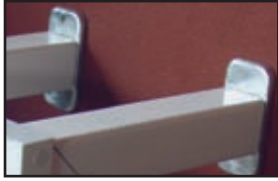

Both the 90mm & 115mm blade provides an excellent opportunity for greater air flow and views, which can be fixed straight into place under glass panels for further sun and heat deflection.

FEATURES & BENEFITS

- **RESORT Aluminium Plantation Shutters** provide insulation benefits to the heating and cooling requirements of any residence when installed on the outside of the window
- Both blade sizes have stiffening ribs inside each extrusion to provide greater wind strength and resistance to impact damage.
- Installation applications can be adapted to be rated to W3 wind specification. (180KM/H)
- If blades become damaged they can be easily replaced with a unique blade replacement kit without the removal and remanufacturing of the entire panel.
